dimethyl ether, dinitrogen monoxide and/or nitromethane, (B) 8 to 20 percent by weight of propylene, methylacetylene, propane and/or propadiene[and], (C) 20 to 45 percent by weight of isobutane and/or n-butane, as combustible gases and (D) a fragrence or mixture of frangrances.

Add Claim 12 as follows:

12. The fuel gas of claim 7 wherein the fragrance or mixture of fragrances is contained in an amount of 0.0001 to 5 percent by weight.

REMARKS

The last office action of April 29, 2002 has been carefully considered. Claims 7 – 10 and 12 are in the case.

Claim 7 was placed in independent form. Additionally, the language "especially for setting implements for fastening elements" from claim 1 was not reproduced in Claim 7, thus the rejection of Claim 7 based on the indefinite language contained in Claim 1 has been eliminated. Additionally, Claims 8-10 were rejected as being indefinite as depending from Claim 7, which was indefinite as depending from Claim 1. These rejections are now cured.

Claim 12 is former Claim 3, but now depends from independent Claim 7, rather than Claim 1.

All claims rejected for reasons other than the indefiniteness of the language "especially for setting implements for fastening elements" contained in Claim 1 have been cancelled and the above language was not reproduced when placing Claim 7 in independent form.

The Commissioner is authorized to charge any fees which may be required to our Deposit Account No. 50-0955.

Respectfully Submitted,

Paul Scott
